SURVEY QUESTIONNAIRE (SQ)

Dear Participant,

You are selected to answer the survey questionnaire (SQ) for the pastoral research, *Studying the Catechized (SC) of the National Catechetical Study (NCS) 2021: Pastoral Action Research and Intervention (PARI) Project.*

This survey asks questions about the following:

1. The life of the catechized Filipino Catholics relative to (a) socio-demographic and economic contexts; (b) sociocultural and religious experiences; and (c) the Catholic Social Teachings and catechesis;
2. The catechetical ministry (CM) in terms of (a) exposure and formation; (b) catechetical experiences; and (c) influences of catechesis; and
3. Your sociodemographic profile.

Your responses will help us in understanding the Philippine catechetical scene in order to implement research-based intervention activities toward a relevant and meaningful CM in the country. Our hope is that this study will generate educative opportunities for new modes of catechesis and evangelization in the Philippines.

The survey contains 57 questions with a number of sub-questions. Answering the questionnaire will take about 30 to 45 minutes. This is voluntary and you may stop answering the survey at any given time.

Be assured that all information shared in this survey will only be used for research purposes. The final research results will be reported and will be made available in 2021.

If you have any questions or concerns regarding this survey, please contact:

Mahal na Kalahok,

Ikaw ay napili upang sagutan ang survey questionnaire (SQ) para sa pastoral na pananaliksik na may pamagat na *Pag-aaral sa mga Nakatanggap ng Katekesis* ng *The National Catechetical Study (NCS) 2021: Pastoral Action Research and Intervention (PARI) Project.*

Ang survey na ito ay may mga katanungan tungkol sa mga sumusunod:

1. Ang buhay ng Katolikong Pilipino na nakatanggap ng katekesis na may kinalaman sa (a) sosyo-demograpiko at ekonomikong konteksto; (b) sosyo-kultural at mga karanasang panrelihiyon; at (c) mga Katolikong Turong-Panlipunan at katekesis;
2. Ang mga sumusunod na dimensyon ng catechetical ministry (CM): (a) exposure at formation; (b) karanasang kateketikal; at (c) impluwensiya ng katekesis; at,
3. Ang iyong socio-demographic profile.

Ang iyong mga tugon ay makatutulong para maintindihan ang kateketikal na kalagayan sa Pilipinas upang magsagawa ng mga proyektong batay sa pananaliksik tungo sa makahulugang CM sa bansa. Inaasahan namin na sa tulong ng pag-aaral na ito, makabubuo ng mga bagong pamamaraan at oportunidad sa pagtuturo ng katekesis at evangelization sa Pilipinas.

Ang survey ay may 57 pangunahing tanong na sinusundan ng ilang dagdag na tanong. Ang survey ay masasagutan sa pagitan ng 30 hanggang 45 minuto. Ito ay boluntaryo at maaaring itigil sa anumang oras.

Ang mga impormasyong ibabahagi sa survey na ito ay gagamitin lamang sa pananaliksik. Ang resulta ng pananaliksik ay inaasahang magiging handa at maisasalathala sa taong 2021.

Kung mayroon kang mga katanungan o pag-aalinlangan hinggil sa survey na ito, maari mong kontakin ang mga sumusunod:

11 Mobile Photography Tips: How To Get Better Photos With Your Phone

© Stephen Ironside | https://www.creativelive.com/blog/eleven-mobile-photography-tips/

11 Mobile Photography Tips

1. Look for good light for a great image.

The first thing you should do is look around you and look at where the natural light is coming from. It could be from lamps, or a window, from a ceiling fan overhead, or even just direct sun.

2. Know when (not) to use flash.

Unless there's no other option for light, you should usually avoid using your phone's flash.

3. A selfie isn't always best.

It will look more natural and maybe just feel a little more timeless than seeing the upper half of your arm sneaking into the picture. You can also get a tiny tripod you can stick your phone on, such as this one.

4. Don’t zoom. Ever.

“Zooming” on (most) cell phone cameras isn’t the “zoom” you might think it is... the only thing that is “zooming” is the software cropping the image down to a smaller size.

11 Mobile Photography Tips

5. Be steady.

Shaky hands are just as bad for cell phone images. You can use the physical shutter button, if you'd like — just press the volume buttons, or even the buttons on your headphones.

11 Mobile Photography Tips

6. Don’t forget to focus.

Tap. Focus. Just don’t forget.

7. Adjust the exposure manually.

It’s usually pretty easy. Once you tap and focus, you can just slide up or down on the image and it adjusts the exposure accordingly.

8. Experiment with third party camera apps.

I use Camera+ on my phone when I want to use a timer, or adjust the white balance, or set my own shutter speed/ISO.

9. Don’t forget your rules of composition.

Use the **rule of thirds if you want**. **Symmetry**, **leading lines**, **colors**, **textures**, and all of the other standard composition techniques

10. Clean that lens!

Just check it every so often, okay?

11 Mobile Photography Tips

11. Edit!

There are plenty of photo editing apps that can make good images better images — *Adobe Lightroom Mobile, Snapseed, VSCO*, etc.
