

KoBo Toolbox

Orientation

September 8, 2019 | Sunday
9:30 AM - 12:00 PM

OSA Conference Room, Tan Yan Kee Student Center ,
University of Santo Tomas

Rationale

The NCS 2021: PARI Project will employ technology in its data gathering activities through Phablets and Google forms.

KoboToolbox and Kobo Collect is the most effective software that can assist the research in the finalizing of the survey questionnaire to be deployed in the selected Ecclesiastical Territories (ET), Parishes and areas without internet connection for the data gathering period on September to December, 2019. In realizing this, the NCS research team will conduct a workshop on KoboToolbox and Kobo Collect for the NSTP-CWTS students who are part of the National Service Training Program (NSTP) – National Catechetical Project (NCP) 2021.

Aside from educating students how to use the software on their own for future use, it shall also be regarded as an efficient way to help the project in finalizing its tools.

Specifically, the workshop intends:

1. To develop a new skill in terms of data collection for field work activities;
2. To assist the NCS 2021: PARI Project in its pre-data collection phase through encoding of survey questionnaires for the three pastoral projects namely SC, SCC and SCHR; and
3. To design survey questionnaires in the most efficient and effective way possible.

Program

September 8, 2019 Sunday		
TIME	ACTIVITY	PERSON IN CHARGE
9:30 - 9:32 AM	Opening Prayer	NSTP Student c/o Ms. Heiden Anorico, MA
9:32 - 9:40 AM	Opening Remarks and Overview of the NCS 2021: PARI Project	Prof. Clarence M. Batan, PhD.
9:40 - 9:55 AM	Overview of NCS 2021: PARI Project SC	Asst. Prof. Cecile Balajadia, MA
9:55 - 10:10 AM	Overview of NCS 2021: PARI Project SCC and SCHR	Ms. Heiden Anorico, MA
